

Trustteam – Microsoft Engineer

JOB ROLE

As a System Engineer, you will play a crucial role in maintaining, implementing, and optimizing Cloud solutions for our clients. You will be part of our Operations team.

JOB PROFILE

In this role, you will:

- Implement IT platforms based on designs provided by our Architects.
- Execute migrations of existing production environments.
- Perform maintenance tasks (Private Cloud, Public Cloud, and on-premise environments).
- Review and troubleshoot existing Microsoft infrastructure.
- Act as an escalation point for the Technical Support team in case of complex incidents (Support Level 3).
- Work closely with our Application Architect to provide feedback from past projects (lessons learned) and contribute to improving our design and migration processes.

Technical Skills:

- You have at least a bachelor's degree or equivalent field experience.
- Minimum 3 years of experience with Microsoft technologies, preferably at an IT service provider.
- Expertise in configuring and managing Office 365 environments (Entra ID, Exchange Online, Teams, Pureview, OneDrive).
- Proficiency in PKI, WSUS, and KMS solutions.
- Proven experience in deploying Cloud solutions on Microsoft Azure (Azure ARC and Azure Update Management).
- In-depth knowledge of Microsoft operating systems (both server and client).
- Strong experience in managing Active Directory while maintaining security protocols.
- Experience in deploying and supporting Microsoft Exchange across all versions.
- Strong asset: Proficiency in PowerShell or other scripting languages to automate administrative tasks.
- Additional advantage: Familiarity with SharePoint and ITIL principles.
- Additional advantage: Knowledge in networking, security, and virtualization.
- Microsoft certifications will be considered an asset.
- Passion for IT solutions and technologies.

Soft Skills:

- Reliability and commitment to getting the job done.
- Strong interpersonal and communication skills.
- Team player with a collaborative mindset.
- Fluent in English and French; knowledge of Luxembourgish and/or German is an advantage.
- Flexible in working shifts.
- Availability to work outside business hours for maintenance in production environments.

WE OFFER

- An innovative and stimulating environment where you can develop your technical skills and contribute to impactful projects.
- Opportunities for continuous career growth within an expanding company known for its professionalism and high-quality services.
- A competitive and attractive salary package with extra-legal benefits.
- Continuous training, a creative and enriching work environment, and a strong team spirit.
- A professional team with a high level of commitment and excellent teamwork.
